Customer Insights Dashboard: CLV & Churn

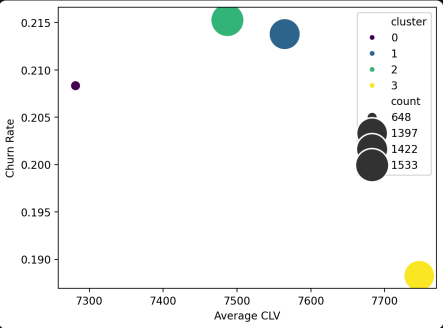

This dashboard analyzes customer behavior, identifies churn risks, and segments customers for targeted marketing.

Total Customers	Average CLV	Churn Rate	Avg Monetary	Avg Satisfaction
5,000	\$7,555.00	20.6%	\$10,005.77	3.0/5

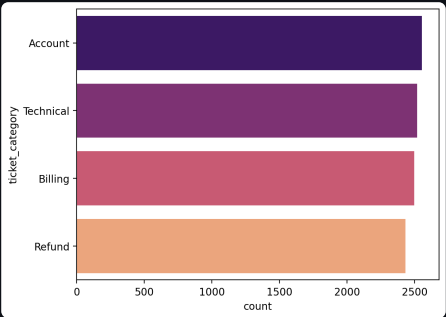

Distribution of Customer Lifetime Value

Customer Segments (CLV vs Churn)

Support Ticket Categories

Segment Deep Dive

cluster	clv	churn_rate	ticket_count	count
0	\$7,281.29	20.83%	2.0	648
1	\$7,564.55	21.38%	2.0	1422
2	\$7,486.99	21.53%	2.0	1533
3	\$7,746.87	18.83%	2.0	1397

💡 Strategic Recommendations

- Cluster 3 (High Value/Low Churn):** Focus on 'VIP' loyalty programs and referral incentives.
- Cluster 0 (High Churn Risk):** Immediate outreach via personalized retention emails and discount offers.
- Support Optimization:** Address the most frequent ticket categories (e.g., Technical or Billing) to improve overall satisfaction and reduce churn friction.
